

MANUAL PARA CREACIÓN DE API EN TWITTER

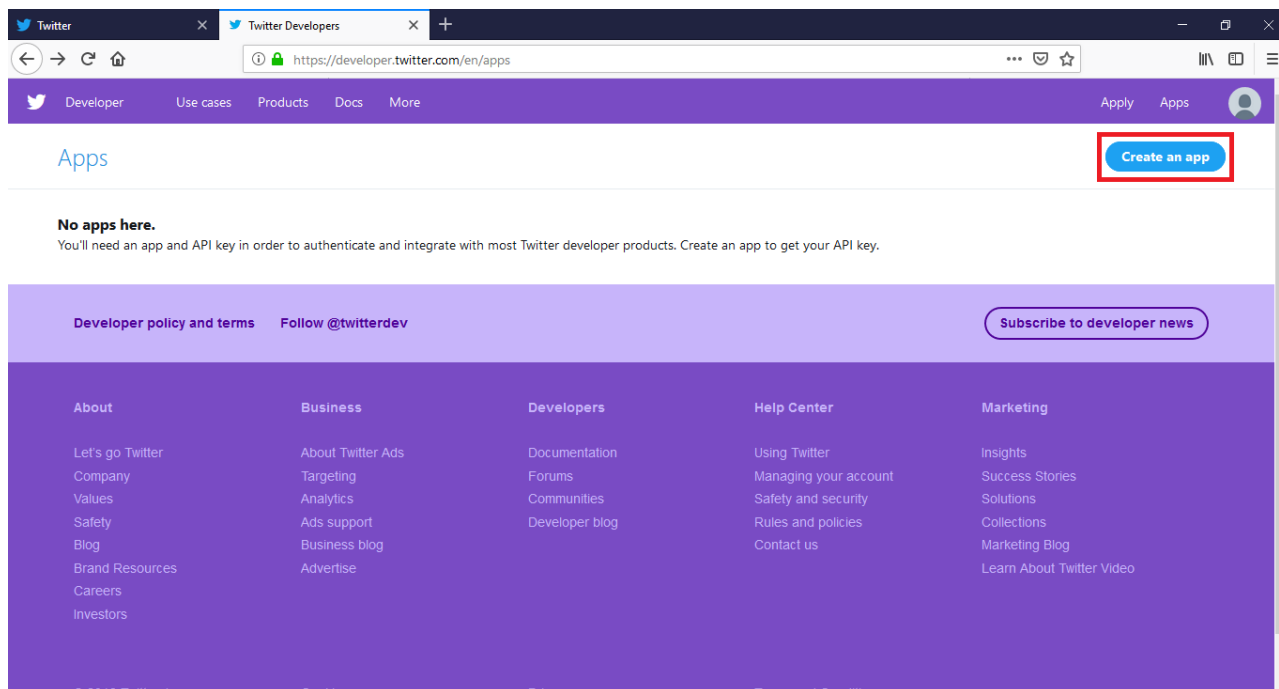

PASO 01

Debemos previamente tener una cuenta de Twitter. Acceder a este link y seleccionar la opción "APPS": <https://developer.twitter.com/>

PASO 02

Seleccionamos el recuadro de Create app para poder empezar a crear nuestra API de Twitter.

PASO 03

Seleccionar el objetivo por el cual queremos crear el API en Twitter.

The screenshot shows the Twitter Developer API application page. The URL is <https://developer.twitter.com/en/application/use-case>. The page has a purple header with navigation links: Developer, Use cases, Products, Docs, More, Labs, Apply, and Apps. The main heading is "Get access to the Twitter API". On the left, a purple sidebar contains a "#welcome" message and a list of reasons for the application process. The main content area is titled "We'll help you on your path to getting the most out of Twitter APIs and data." and displays four categories of use cases: Professional, Hobbyist, Academic, and Other. Each category has a list of specific use cases with icons and radio buttons for selection. A "Next" button is located at the bottom right.

#welcome

We're excited you want to use Twitter APIs and data!

As a developer platform, our first responsibility is to our users: to provide a place that supports the health of conversation on Twitter.

This application process helps us to:

1. Prevent abuse of the Twitter platform.
2. Better understand and serve our developer community.

Professional
...for commercial uses

- Building B2B products
- Building consumer products

Hobbyist
...for a personal project

- Making a bot
- Building tools for Twitter users

Academic
...for education or research

- Doing academic research
- Teaching

Other
I don't fit any of those

- Embedding Tweets on a website
- Doing something else

PASO 04

Completamos los espacios requeridos. Seleccionamos la opción de Perú y el nombre que queremos ponerle al APP.

The screenshot shows the Twitter Developer API application page with the form completed. The URL is <https://developer.twitter.com/en/application/use-case>. The page has a purple header with navigation links: Developer, Use cases, Products, Docs, More, Labs, Apply, and Apps. The main heading is "Get access to the Twitter API". On the left, a purple sidebar contains a "#welcome" message and a list of reasons for the application process. The main content area is titled "We'll help you on your path to getting the most out of Twitter APIs and data." and displays the completed form fields. The form includes a "Switch @username" button, a "Create new @username" button, a "Switch to a team developer account" button, an email address field, a "What country do you live in?" dropdown menu, a "What would you like us to call you?" text field, and a "Want updates about the Twitter API?" checkbox. A "Back" button and a "Next" button are located at the bottom right.

PASO 05

Completamos las preguntas que tienen el objetivo de saber por qué estamos creando el API. Todas las opciones tienen un mínimo de palabras y deber ser completados en inglés necesariamente. Seleccionar "Yes" en cada casillero y completar.

The screenshot shows the 'Get access to the Twitter API' page, specifically the 'Intended use' step. The page is divided into two main sections. On the left, a purple sidebar contains 'Key things to keep in mind', 'Restricted uses', and 'Automation'. The main content area is titled 'How will you use the Twitter API or Twitter data?' and includes a text box for 'In your words' and a toggle for 'The specifics'.

Key things to keep in mind

This section of the application helps us ensure that users of our data are complying with [Twitter's Developer Policies](#).

This review process and our policies help us keep Twitter a safe and healthy space for public conversation.

Restricted uses

Some activities (like surveillance) are never allowed on Twitter. Take a look at our [restricted uses](#) page to ensure that your use case is policy-compliant before you submit an application.

Automation

Be sure to review the [automation rules](#) if you plan on enabling any sort of automated activity on the platform.

How will you use the Twitter API or Twitter data? All fields are required unless marked optional

In your words

In English, please describe how you plan to use Twitter data and/or APIs. For students and teachers, please include the name of the school, the name of the instructor and the course number (if available). The more detailed the response, the easier it is to review and approve.

Please be thoughtful and thorough

Response must be at least 200 characters 200

The specifics

Are you planning to analyze Twitter data? ☒ Yes ☐ No

PRIMERA RESPUESTA

I want to get access to the Twitter API in order to be able to work with the data of the followers that are related to user determiners. The results obtained will be presented in reports, duly taking care of the personal information of each user.

SEGUNDA RESPUESTA

The data obtained from the scraping of different users will be analyzed with the statistical program R. In order to find results for my research work.

TERCERA RESPUESTA

These variables will be used to the extent that the data is obtained. We will focus specifically on obtaining the amount of "likes", tweets (content) and retweet.

CUARTA RESPUESTA

The results of the catches will be presented in reports or research papers. In no case will the id of the people be published. The works will be presented together.

QUINTA RESPUESTA

In this case, the information obtained will not be provided to state entities. They are personal and specifically research.

PASO 06

Luego de completar los datos, solo debemos culminar dando click en "Look good".
